UBS

August 29, 2024

BAHNHOFSTRASSE 45, 8001 ZÜRICH

Internship 2024, Business Risk Organization GFIW

Dear Hiring Manager,

About Me

In my previous role as a Software Developer at Diomedes, a high-frequency trading firm, I improved my skills in scientific programming and data analysis. I successfully parsed and analysed large datasets using Python and SQL, developed statistical models to derive key metrics, and implemented automated processes to enhance data quality and efficiency.

My academic background includes a Ph.D. in Mathematics from the Mathematics Institute of the Romanian Academy, where I specialised in spectral and algebraic methods in the study of differential manifolds.

Why UBS?

I am writing to express my interest in the Internship 2024, Business Risk Organization GFIW. My motivation comes from my willingness to solve real world problems as well as my desire to constantly improve. With my background in mathematics and experience in software development I am excited about the opportunity to work on UBS risk department. Additionally, UBS is one of the largest banks in the world and I believe that here my work can have a worldwide impact.

Why Me?

My research experience has equipped me with strong analytical and problem-solving skills, whereas my previous Software Developer role gave me hands-on experience to implement my ideas and solutions. I believe that this mix of academic rigor and real world experience will be valuable for working on a variety of projects.

Sincerely,
Rareș Anghel-Stan
